FULL VINDICATION FOR CAPT. DREYFUS

Supreme Court Annulls His Condemnation.

HIS RANK IN ARMY IS RESTORED

After Twelve Years of Persecution Dr. Dreyfus Is Completely Vindicated and Is Freed from All Charges and Accusations

Paris, July 13.—The supreme court today announced its decision annulling the condemnation of Dr. Dreyfus without a retrial. The effect of the decision is a complete vindication of Dr. Dreyfus, entitling him to restoration to his rank in the army as though he had never been accused.

Captain Alfred Dreyfus of the artillery, a member of a wealthy Hebrew family of Alace, where he was born in 1859, was on October 14, 1894, arrested on the charge of communicating French military secrets to a foreign power. Two months later Dreyfus was tried by courtmartial and found guilty and Jan. 5, he was publicly degraded and deported to Devils Island, off Cayenne, French Guiana, there, recently to spend the remainder of his life. The friends and relatives

of Dreyfus, notably his wife, always believed in his innocence, and devoted their energies to the work of proving that he had been unjustly convicted.

Colonel Picquart, when he became chief of the intelligence department of the French army in 1895, examined the documents in the proceedings against Dreyfus and questioned the correctness of the proceedings, and continuing his investigation form the opinion that evidence appointed to Major Count Esterhazy as being the guilty man. Picquart determined to see that justice was done and there ensued a fight to preserve the honor of the French army.

When M. Cavalgnac became head of the French war office, he read in the chamber of deputies several documents which, he said, proved the guilt of Dreyfus. Colonel Picquart, afterwards, charged that these documents were forgeries, for which he was arrested and degraded.

The decision of the court was read by the presiding judge, M. Ballot Beaupre, president of the court of cassation, immediately on the reassembling of court at noon Tuesday. The palace of justice was thronged by an eager crowd seeking admission to the court room. Captain Dreyfus was not present continuing his habitual secrecy by remaining secluded in the quiet rest, where he has hitherto been cut off from the outer world.

The scene as the decision was pronounced was one of impressive dignity. The court, consisting of 49 judges, gowned in flowing red robes, solemnly mounted the bench. Deep silence prevailed as the presiding judge read the lengthy decision, minutely reviewing the series of sensation events of the last twelve years and completely disculpating Dreyfus of all wrong-doing, freeing him of the accusation of being the author of the famous incriminating documents, on which the entire charge was founded and authorizing the annullment of the judgment of the Rennis courtmartial with the 50 newspapers to be chosen by Captain Dreyfus.

The reading of the decision lasted an hour and it was only at the close that the spectators realized the nature of the vindication. As the final determination was announced, there was a buzz of excited comment and some exclamations of approval which the court officers sternly repressed.

Matthew Dreyfus hastily dispatched a messenger to bear news to Captain Dreyfus and Madame Dreyfus.

Carrie's "Talk" Was Warm.

Dallas, Tex., July 13.—Mrs. Carrie Nation was arrested at Clerbourne late Wednesday afternoon, by a deputy United States marshal on a warrant charging her with having misused the mails. She was brought to Dallas, and after appearing before United States Commissioner A. W. May, was released on bond in the sum of of $2,500. The examining trials is set for July 31. The warrant comes from Guthrie, Okla., and specifies that she deposited in the postoffice a publication containing an improper article headed "A Private Talk to Boys."

Prosperity Responsible for Insanity.

Chicago, July 13.—A dispatch to The Record-Herald, from Baltimore, says that prosperity is declared largely responsible for the marked increase in insanity according to the report of Dr. Charles G. Hill in charge of the Mount Hope Retreat, which was made public yesterday. "It is," says Dr. Hill, that by a thorough research it should be traced in a great part to the prosperity of the period; the luxurious indulgence, the dissipations, the departure from the old-time standard of rectitude and the moral deterioration."

On Trestle Trains Crash.

Columbia, S. C., July 13.—Conductor S. W. H. Snead, of Savannah, Ga., was fatally crushed, and two other trainmen were slightly injured in a rear-end collision of Seaboard Air Line freight trains on a high trestle just outside of the city Wednesday. The accident occurred on a trestle above the ground, and that the two trains did not topple over, is regarded as miraculous. The track was only slightly damaged, and traffic was delayed but a short time.

Robbers Secure Big Haul.

Seattle, Wash., July 13.—More than $100,000 consigned to the Alaskan Pacific Express company has been stolen from aboard the steamer Ida May, and no clew has been discovered as to who the robbers are. The shipment was sent from Fairbanks and was transferred at Nenana. The Ida May was to transfer it to the Sarah at Fort Gibbon, and it was there that the loss was discovered.

Passenger and Freight Collides.

Philadelphia, July 13.—An express train, known as the Philadelphia special on the Pennsylvania, which left Pittsburg at 10:02 o'clock Wednesday night, and was due here at 6:50 on Thursday, collided with a freight train which was being shifted at Glen, Pa., about 25 miles west of Philadelphia. Passengers on the express were shaken up and bruised, but none was seriously injured.

SALVADOR AND GUATEMALA AT WAR

Hostilities Have Already Begun Between Two Countries.

U. S. WORKED TO PREVENT WAR

And It Was Thought Peace Was Assured—Minister Combes Hurries to Guatemala City to Look After the American Interests

Washington, July 13.—Hostilities between Salvador and Guatemala have broken out anew on the border between those countries, where peace was supposed to have been established pending a settlement of the trouble between the two countries.

Leslie Combes, the American minister to Guatemala, who was on his way to the United States to assist in settling the difficulties between Salvador and Guatemala, has been ordered back to Guatemala City from Champeric, Guatemala, where he was reached by cable.

Mr. Combes will remain in the Guatemala capital to keep the United States advised concerning the trouble and to protect American interests.

Salvadorean and Guatemalan troops have been massed near the common boundary of the two countries for some time, and a serious clash was expected, but a temporary armistice seemed to have been agreed upon and Salavador announced that J. H. Pacus had been named as a special envoy to Washington for the purpose of making representations to the American government concerning Salvador's position. John Jenkins, the American consul general at San Salvador was to accompany Mr. Pacus to this country.

Salvador's alleged assistance of revolutionists in Guatemala who were attempting to overthrow President Cabrera, caused Guatemala to protest bitterly to the United States and Mexico, and resulted in representations to Salvador by those two republics which indicated that they presented foreign interference in the internal affairs of Guatemala. It was believed at the state department here until recently that President Cabrera had put down the revolution and that the row with Salvador would soon be amicably settled.

Necktie Industry Tied Up.

New York, July 13.—All the necktie industry of the city is still tied up in a hardknot, for conferences held between the strikers and the contractors failed to smooth out the situation. One thousand of the girl tie makers were in and out of Jefferson Hall all day. Among them there walked as a heroine Miss Fannie Pepper, for a slap alleged to have been bestowed upon by one of the bosses, caused all the trouble. The union demanded a fine of $25 from the contractor and an apology from which he refused to give. "To be treated like a lady" is the watchword of the strikers.

Berkeley, Calif., July 13.—Wishing to honor the memory of John W. Mackay, Jr., his brother Clarence Mackay, and his bother deposited $100,000 to the University of California for an establishment of a professorship of electrical engineering, the annual income from the money will be supplied to the payment of a professor salary and the expenses and maintenance of the department, the original fund to be kept intact in perpetuity.

Brained His Wife and Four Children.

Charleston, S. C., July 12.—A special to The Evening Post from Walterboro, says that J. W. Ireagan, a well-to-do white farmer of Colleton county, killed his wife and four children, braining them with an ax at their home about 20 miles from Walterboro. He then went to a neighbor's house and told him of his deed. Neighbors brought him to Walterboro jail. Ireagan says he killed his family, but does not know why. He is a native of Sweden. Some years ago he tried to cut his throat and is believed to be insane.

CASE OF FEVER IN LOUISIANA.

Yellow Jack Reported Within Twenty-five Miles of New Orleans.

New Orleans, July 13.—A report that one case of yellow fever developed on June 25 at LaPlace, La., 29 miles from here, was made Wednesday by the state board of health. The patient is now well.

Because this case was not reported to the state board until Wednesday, 16 days after it developed, Dr. Irion, president of the board announced that he had asked for legal advice as to whether the physician who attended the patient can be prosecuted under any state law for failure to report promptly the nature of the disease to the health authorities. The state board also unanimously adopted a resolution directing Dr. Irion to ascertain what laws have been violated in this case. Dr. Montagu, formerly a parish health officer, was the physician in attendance and his report was made by mail to the parish health board on July 7, after the patient's recovery.

When the report reached here physicians were sent to LaPlace to investigate and prevent, if possible, any spread of the disease. They report that since the patient is now well, all possibilities of establishing a diagnosis is now past, but that the history of the case given by the family is contra-indicative of yellow fever. The patient's house and buildings in the neighborhood were disinfected by yellow fever methods and every precaution taken. Although LaPlace had cases of yellow fever last year, the present case was in a house and neighborhood which escaped last year's epidemic. Dr. Irion has sent letters to the health officers of Texas, Alabama and Mississippi saying that a close watch will be kept on LaPlace for developments, but that he does not feel any anxiety over the situation.

In March and April last as a post epidemic precaution 810 houses and 2,450 rooms in St. John's parish, in which LaPlace is situated, were disinfected by the burning of 8,843 pounds of sulphur.

Clerk Creamer Resigns Office.

Savannah, Ga., July 13.—Clerk of Council, J. Robert Creamer, handed in his resignation to Mayor Myers Wednesday afternoon shortly before the commencement of the hearing of the charges against him. The report of the city auditor was handed to Mayor Myers at 2:30 o'clock. A further discrepancy of $300 is shown by the figures of the auditor. This amount Mayor Meyers stated, will be made good by Mr. Creamer. The resignation put a stop to the investigation, which was called on account of a shortage of $2,400 in the clerk of council's accounts. He paid over the money, but had allowed two months to elapse before doing so, whereas daily settlements are required.

Found Under Bed, Negro Is Lynched.

Swainsboro, Ga., July 13.—About 100 heavily armed men took Eli Pearson, a negro, from Deputy Sheriff Fields about 3 miles from this place shortly after 2 o'clock Wednesday morning, carried him to the Canoochee swamp and lynched him. The night before Pearson was found by Misses Maud and Ida Durden hiding under their bed. Screams attracted their father, an aged man, who entered the room with a gun, but was knocked senseless by the negro, who escaped. He was later captured by the deputy and identified.

Train of Trolley Cars Dashes Into Freight Motor.

GOING AT HIGH RATE OF SPEED

Impact Was Terrific—The Passenger Cars Were Cut in Half by Wedge-Shaped End of the Motor—Some of the Injured.

Buffalo, N. Y., July 13.—A train of two trolley cars, westbound from Lockport, on the lines of the International Railway company, and due at Tonawanda at 9:15 o'clock Wednesday, ran into an open switch at a siding just east of Martinsville and crashed into a trolley freight motor and a train of seven freight cars.

Five persons were killed and a score injured, several seriously.

The passenger cars were going at a high rate of speed when the accident occurred; and the impact was terrific. The foremost car was enterly demolished. The wedge shaped end of the freight motor cut it in half, and the rear car completed the work of destruction. The rear car was badly broken in front, but remained on the rails.

Lion Tamed by Woman's Song.

Chicago, July 13.—A dispatch to the Record-Herald from Omaha, Neb., says that Mrs. John Underwood, of New York, who has been camping with her husband in the Black Hills, owes her life to songs, which saved her from a mountain lion, which attacked her Tuesday. The animal leaped on the woman, knocked her down and stood with its forefeet in her breast. Mrs. Underwood screamed, but suddenly remembered that ferocious beasts sometimes are tamed by music and began to sing. As long as she sang the animal stood harmless, but whenever she ceased it growled and appeared as if about to kill her. All night long she kept up her song and in the morning when almost overcome by exhaustion, she was found by her husband with the lion standing over her. Mr. Underwood shot the animal.

Shock Hurls Man to Earth.

Columbus, Ga., July 13.—Walter G. Murenison, a lineman from Atlanta, in the employe of the Southern Bell Telephone company, fell from a cable 35 feet above the ground Wednesday afternoon, the result of coming in contact with a heavily charged trolley wire. Twenty two hundred volts passed through his body. He fell head downward, and would have been killed outright had he not struck the roof of a porch over the sidewalk. A plank on the porch was broken by the force of his fall. He rebounded from the porch and fell on a horse standing on the edge of the sidewalk. While his injuries are serious, it is believed that he will recover.

Hitchcock, a farmer, was the victim of a charge of carrying concealed weapons in a hearing before Judge Hodges in the superior court, and after entering a plea of guilty got off with a fine of $60. SERIOUS ACCIDENT TO LAWSON MOOTY

Fell From Top of Telegraph Pole and Fractured Jaw-Bone.

ACCIDENT IS VERY PAINFUL

Young Mooty Employed as a Lineman For Western Union Telegraph Company—While Repairing Line Cross-Bar Broke With Fatal Result.

By reason of the breaking of the cross-beam of a pole of the Western Union Telegraph Company at the crossing of Roper avenue and the Atlantic Coast Line Thursday afternoon, Lawson Mooty, a lineman in the employ of that company, fell about twenty-five feet and sustained a broken jaw-bone and other bruises about the arm and shoulder.

Mr. Mooty is well known here, where he was reared, and is quite popular among the younger set with whom he has been associated. He was engaged in repairing the wires of the Western Union Company. The cross-bar at the top of the pole suddenly gave way, precipitating him to the ground. In the fall his lower jaw-bone was broken.

The young man was taken to the National Odd Fellows' Home, when Dr J. M. Dell was summoned and rendered proper assistance. Dr. Dell stated Saturday that the condition of the patient is very painful, but that he is resting very well under the circumstances.

THE CHINAMEN'S STRIKE.

Was Settled Without Difficulty, After Week's Time Lost.

The strike among the recently imported Chinamen at the Chase naval stores farm, Paradise, has been amicably settled, after a week's contention between the "bosses" and the men.

There was really no reason for this strike, as the Chinamen after a time agreed. It appears that the manager of the farm, as much for the good of his men as for the benefit of the business, decided that the men should go to work an hour earlier in the morning, but that they should take two hour instead of one during the hot noon hour. The Chinamen did not understand this proposition, but when it was finally explained to them clearly, they willingly returned to work.

Everything is running smoothly again at this farm—and everybody seems satisfied.

Lottieville Notes.

Lottieville, July 12.—Lottieville is a little town on the J. A S.-W. railroad, about half way from Trenton to the Suwannee river. We have one dry goods and grocery store owned by O. G. Barker, one of our most popular men. We have a postoffice, sawmill and cold drink stand. Our little town is on a boom now. Three families have just moved in, Ed Slaughter and family, C. W. Colson and family, and Walter Hillard and family, and more are expected soon.

Sim Cambell's family of Trenton, but now of Lottieville, have their dwelling nearly completed, and will move soon.

Mrs. O. G. Barker and little son, Singleton, and mother, Mrs. White, have gone to Thomasville, Ga., where they will spend a few weeks visiting friends and relatives.

They Stand Alone.

Standing out in bold relief, *all alone*, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—*printed in plain English.* This frank and open publicity places these medicines *in a class all by themselves*, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither *—being of known composition.*

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

TO TRY DORSEY FOR HIS LIFE.

Slayer of Curtis Twitty To Be Tried in Gainesville, Ga.

Gainesville, Ga., July 13.—The July term of Hall superior court will convene in Gainesville next Monday morning. Judge J. J. Kimsey will preside and Solicitor Charters will represent the state.

One case of particular interest to be tried is that of the state against John Tucker Dorsey, who is charged with the murder of Curtis Twitty on the outskirts of the city some time ago. He was shortly thereafter incarcerated in the Hall county jail, where he is now a prisoner. Dorsey will enter a plea of self-defense, and a strong fight will be made in his behalf by his attorneys, Colonels Howard Thompson and H. H. Dean. On the other hand it is understod that Hon Thomas E. Watson has been engaged by the prosecution to assist Solicitor Charters, so that the outcome of the case will be watched with unusual interest.

Will Not Resign.

Beattyville, Ky., July 13—Judge Jas. Hargis, who, with Ed Callahan, is on trial here on the charge of murdering Attorney James B. Marcum, entered an emphatic denial of the reports that he would resign from the Democratic state central committee. When the case was resumed Thursday, O. M. Wasson, a newspaper man, testified that a few hours before Curtis Jett was placed on the witness stand Wednesday, he had told him that he had been procured by Judge Hargis and B. Fulton French, to kill Mr. Marcum. This closed the testimony and arguments were begun, Mr. Biddle speaking for the defense.

A Lure For Cock Robin.

Two coins clinked together give so good an imitation of the robin's metallic note that this device has long been employed in England to attract the welcome "harbinger of spring." Formerly male robins were snared by the clinking of two copper pennies near a dummy bird. The dummy was perched on a twig smeared with bird lime, and cock robin, attracted by the sound and suspecting a rival, flew at him with blood in his eye. This is in violation of the bird laws in the United States, and no one who lives where robins make their home in confidence is likely to give the odd trick so unpleasant a finale. The clinking coppers serve a much more agreeable purpose as a means of rendering cock robin sociable.

A Fortune In a Song.

Song writing is one of the most lucrative of occupations, provided one has the knack of appealing to the popular taste. The average writer stands a better chance of making money by producing pathetic rather than so called "comic" songs. "The Lost Chord" has made three or four fortunes. It has been the most lasting success on record, and for years Sir Arthur Sullivan, as composer, and Madam Antoinette Sterling, for whom it was specially written, received a royalty amounting to 12 cents each on every copy sold. It was a gold mine to the publishers too.

Onion Soup and Fame.

Membership in the French academy, the hoped for reward of Gallic writers, was once closely associated with onion soup. During the restoration in France a club was formed under the title of "Diner de la Soupe a l'Onion." This organization contained twenty members. It met every three months, when the dinner was opened with an onion soup. The club was to endure until every associate was elected to the academy. This was accomplished in 1845, when the last banquet was held.

"Arrah, now, dear honey," said the other, "poor Pat was condemned to be hanged, but he saved his life by dying in prison."

"I'm going up to interview your wife," said the society reporter. "Do you suppose she'll talk?"

"Do I?" replied the husband. "Why, she'll be talking when your twenty-second edition comes out."

"That's a permit, ma'am, for you to visit th' kitchen. It entitles you to one visit a week. If you come oftener th' permit will be taken up, an' don't you forget it."—Cleveland Plain Dealer.

MR. ROGERS IS GRATEFUL.

The Baptist Pastor Extends Thanks to All the People.

Dear Sun: Through your kindness I desire to give some expression of my deep gratitude which will no longer stay, to my friends and the city of Gainesville, and even beyond, who have shown so much sympathy and interest and such manifest kindness to my home, my dear wife and children, during my recent illness.

"Cast thy bread upon the waters, and thou shall have it after many days," says the Blessed Book; but in all my efforts to comfort, help and relieve the unfortunate whom I may find, no thought of such kindness returned in the after days ever occurred to me, but the manifest sympathy extended me, the thoughtful deeds of help rendered my dear wife and the many little acts of loving kindness fills me with a depth of gratitude which in my weakness almost overcomes me.

There are many whom I must thank in person, whom it would either embarrass, or not be proper to speak of here. The constant and careful attention of Doctors Colsen and Hodges will never be forgotten. Those who took daily care of the little ones, and rendered my wife so much aid otherwise, shall be rewarded if my love and gratitude can ever repay it.

The manifest interest of my brother pastors binds me closer to them, and the sweet spirit and kindness of Brother Corr in filling my pulpit has won my heart forever.

I am so weak I can write no more now. God bless my people, God bless my friends and God bless my town.

S. B. Rogers.

MEETING OF MACCABEES.

A Rousing Meeting of This Order Was Held Friday Evening.

The local temple, Knights of the Modern Maccabees, held an interesting and largely attended meeting in the P. O. S. of A. hall, East Union street, Friday night. Notwithstanding that the order is comparatively young here, having been organized only about six weeks, it has already become in membership one of the strongest in the city, and those who belong to the lodge are manifesting a deep interest in its work.

District Organizer A. C. Hamrick of Jacksonville, who, with Governor Broward, represented the order of Florida at the great camp convention, held in Port Huron, Mich., was present at this meeting, and made a very impressive talk on the order, together with the work which had been accomplished at this convention. In all, the meeting was a great success, and every fellow felt good that he was a Maccabee when the lodge closed.

According to the theory commonly attributed to Dr. Osler, Adam himself lived 870 years longer than he had any business to live.

The rumor that Mr. Armour will not vote for President Roosevelt should he again be the Republican candidate has not yet been inspected.

Undoubtedly Senator Smoot is feeling sorry for some of the men who are married to some of the women who are after him all the time.

Notwithstanding so much fault has been found with the canneries, no adulteration has been discovered in the product of the henneries.

Now that the Chautauqua season has opened in the North for several months to come, we shall hear a good deal about how this country shall be run and the way it isn't.

The number of marriages in San Francisco since the disaster would indicate that an earthquake can beat Cupid a mile in shaking proposals out of timid young fellows.

Care should be taken to make the locks in the Panama canal large enough to admit the dry dock Dewey. Uncle Sam may wish to send that world-famous traveler through it some day.

Kansas wants 25,000 harvest hands and must have them at once, or a large percentage of the wheat crop will go to waste. Why do the Kansas farmers insist on wasting their seed year after year?

Fifty thousand dollars may not be sufficient to buy the Gainesville Gas and Electric Power Company's plant, but it is sufficient to erect a plant in every way its equivalent, if not superior. Take away the contract for lighting the city (or as we have said before, pretending to light it) and the Electric Power Company would be glad to sell for fifty thousand dollars.

INCOME FOR MARRIAGE.

The Chicago Commons has decided that an eligible young man who has saved $500 and met a young woman whose training at home, in school and possibly at social settlements and similar institutions has fitted her to do her part in the making of an attractive home, can afford to "pop the question" and ask that the day be named.

In the absence of exact statistics it is safe to guess that considerably less than half the families of Chicago live on considerably less than half of $100 a month. The average income of families in the United States is less than $500 a year.

It is demonstrated by means of tables and diagrams that on a salary of $100 a month a married couple can, under the circumstances named, not only live comfortably in a five-room flat, but save $300 the first year toward a home of their own.

Really, income is the least important thing in happy marriage, and has been such ever since the red roses of love first began blooming in the human heart. The things absolutely essential to the happy home are strangely few. Chief among tham are labor and love. Neither of these costs money. But both of them often fly from it.

One of the main arguments advanced by some people in opposition to local option is that whiskey is shipped into the county from other places and the city and county receive no revenue therefrom. Admitting that the argument is true, is it not equally true that other articles of commerce, such as wearing apparel, foodstuffs, furniture, etc., are imported without the city or county receiving the benefit of a license tax? The only way to stop the shipping of liquor into a dry county is by the passage of a prohibitory act by Congress, and many of the present generation will live to see the enforcement of such a law. The last Congress passed a law requiring the internal revenue collectors to furnish, on a demand, a list of United States licenses issued in dry counties for the sale of liquors, and under the Florida statute the possession of such license is prima facie evidence that the holder thereof is engaged in the sale of liquor.

Any American who owns a honk wagon and wants to honk around a bit in Canada is free to do so on certain conditions. He must duly report his machine to the custom officers, state its selling price, give a bond for double the regular duty and make a deposit of $25. If he honks around for a longer time than three months he outstays his welcome; the dominion collects the duty and keeps the $25. If he puts for the United States before the expiration of the three months he doesn't pay a cent of duty and he gets back his deposit.

An interesting fact in regard to diamonds is that it is not uncommon for the crystals to explode as soon as they are brought up from the mine. Sometimes they have burst in the pockets or the warm hands of miners, due to to the effect of increased temperature. Large stones are more likely to do this than small ones. Valuable stones have been destroyed in this way. Some dealers imbed large diamonds in a raw potato for safe transport from South Africa.

And now Madison county will vote on the question of "whiskey or no whiskey." Those who are setting up the old thread-bare argument that if whiskey is voted out the town of Madison will go to the "demnition powwows," should visit Gainesville and note the rapid strides this town has made during the past three years. It may injure business for a while, but in the long run you will never regret having voted out the saloon.

The City Council seems to have overlooked the provisions of section 7 of the city charter requiring "the auditing, annually, by an expert accountant not connected with the municipal government, of the accounts of each municipal officer handling moneys of the city," etc. If this section of the charter has ever been complied with The Sun has never heard of it.

For the month of May in the postoffice department at Washington some five thousand dollars was received at the dead letter office, and but a small portion of this vast sum could be returned to the senders, for the simple reason that the addresses were insufficient. ...re is a disease prevailing in this ...y most dangerous because so decep... tive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy. It corrects inability to hold urine and smarting pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MRS. EMMA FLEISSNER

Suffered Over Two Years—Health Was In a Precarious Condition—Caused By Pelvic Catarrh.

HEALTH AND STRENGTH RESTORED BY PE-RU-NA.

Mrs. Emma Fleissner, 1412 Sixth Ave., Seattle, Wash., Worthy Treasurer Sons of Temperance, writes:

"I suffered over two years with irregular and painful periods. My health was in a very precarious condition and I was anxious to find something to restore my health and strength.

"I was very glad to try Peruna and delighted to find that it was doing me good. I continued to use it a little over three months and found my troubles removed.

"I consider it a splendid medicine and shall never be without it, taking a dose occasionally when I feel run-down and tired."

Our files contain thousands of testimonials which Dr. Hartman has received from grateful, happy women who have been restored to health by his remedy, Peruna.

Alleged Murderer Suicides.

Elroy, Wis., July 13.—Conductor N. M. Riggs, who was arrested here on Wednesday in connection with the murder of Millie Ellison at Minneapolis, shot himself early Thursday, dying instantly. Riggs when arrested asked to be taken to see his wife and daughter, who are visiting in the country. He returned last night and talked with many friends, being apparently cheerful but somewhat pale. Shortly after midnight Riggs asked permission to go to the hotel to the his room. With an officer outside and without locking the door, Riggs shot himself through the temple. When searched just after his arrest Riggs had no weapons. Officers from Minneapolis were on their way here at the time of the suicide.

EDITOR LOGAN PASSES AWAY.

Was Connected Through Long Life With Newspapers of Charleston.

Charleston, S. C., July 13.—After a short illness which gave no promise of recovery and lasted only a fortnight, Roswell T. Logan, telegraph editor of the News and Courier, died at his home Wednesday morning.

He was born in Charleston 70 years ago, and after receiving a good education and being admitted to the bar, took up newspaper work and was connected with the Charleston Mercury just after the war between the states. During that conflict he was a valiant confederate soldier and served through the entire war.

His newspaper work in Charleston during the dark days of "reconstruction," were particularly valuable to his state by holding to ridicule the absurd performances of the reconstruction convention which was held in Charleston. A brilliant and forceful writer, he contributed largely to the journalism of his time. He leaves a family of five sons, and two daughters, the eldest son, Plowden Logan, being connected with The Philadelphia Bulletin.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at all drug stores. 50c and $1. Trial bottle free.

Thackeray and Dickens.

This is the way George Henry Lewes once characterized Thackeray and Dickens in the way of service to a friend: Dickens, he said, would not give you a farthing of money, but he would take no end of trouble for you. He would spend a whole day, for instance, in looking for the most suitable lodgings for you and would spare himself neither time nor fatigue. Thackeray would take two hours' grumbling indecision and hesitation in writing a two line testimonial, but he would put his hand into his pocket and give you a handful of gold and bank notes if you wanted them.

Bowling.

Bowling is one of our games that originated in the middle ages. The exact date of its introduction is obscure, but it has been clearly traced to the thirteenth century. The first bowling greens were made in England. In bad weather these could not be used to advantage, and this led to the construction of covered bowling alleys.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that eats the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the ecemles of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

AGRICULTURAL BILL PASSES

Vote Stood 97 to 60 After Spirited Discussion Lasting Several Hours.

Atlanta, July 13.--After a prolonged and determined fight waged by the friends and opponents of the measure, house bill No. 1, by Mr. Conner, of Bartow, appropriating $100,000 to the state agricultural college, at the city of Athens, was passed Wednesday afternoon at 2 o'clock by the lower branch of the general assembly by a vote of 95 to 60

Cheers from the advocates of the bill greeted the announcement of the vote.

Notice of a motion to reconsider was given by Mr. Flynt, of Spalding.

Mr. Martin, of Elbert, moved that the bill be transmitted at once to the senate. Others objected and this led to a discussion of the rules. The point of order was sustained by Speaker Slaton, who declared the house adjourned until 10 o'clock on Thursday

At the request of Mr. Overstreet, of Screven, visitors were for the first time this year asked to leave the floor of the house.

This action followed a rather startling declaration by Mr. Wright, of Floyd, who stated that he had never before witnessed so much lobbying in behalf of any measure pending before the Georgia legislature.

The bill by Mr. Blackburn, of Fulton, passed Wednesday provides that upon the recommendation of the grand jury a police patrol to consist of a captain and not less than two men may be created at any militia district of the state. Members of the patrol shall be appointed by the grand jury and their duty shall be to protect residents of rural districts from all forms of lawlessness

Such a patrol may be discontinued upon the recommendation of the grand jury, provided it has been organized for a term of two years.

Immediately after the house was convened at 9 o'clock the bill by Mr. Blackburn, of Fulton, providing for a rural police patrol was placed upon its passage. Mr. Blackburn made a brief speech in behalf of the measure, concluding by calling for the ayes and nays. The bill was passed by a vote of 99 to 40.

THE REAL VALUE.

How All Literature Is Contained In a Few Great Books.

Young people must every now and then hear it said or see it written that all the real value in literature can be put upon a small shelf—that is to say, the really important part of all that is written is contained in a very few good books, all the rest being either unimportant or different ways of saying the same things that have been said before. The statement, of course, is not true if it be taken literally. There are certainly many hundreds, perhaps thousands, of books that contain original thoughts or experiences that are truly valuable; but, generally speaking, the best part of all that has been written is to be found in a few volumes. To understand how this is possible we must remember that nearly all rules are the same as other and simpler rules. In arithmetic, for example, the whole science consists of only four simple ways of treating numbers. We can add, subtract, multiply and divide, and that is all we can do to numbers. The rest of the book is only the working out of these four rules; thus all of the arithmetic could easily be put into a little page that one could carry in the vest pocket.

All behavior, all right living, is also set forth in a few simple laws. These illustrations will show what is meant by saying that all literature is contained in a few great books. The Bible and the works of a few famous poets and essayists contain all human wisdom, and these are within the reach of every purse.—St. Nicholas.

Abraham Lincoln

Was a man who, against all odds, attained the highest honor a man could get in the United States. Ballard's Horehound Syrup has attained a place never equalled by any other like remedy. It is a sure cure for coughs, colds, bronchitis, influenza and all pulmonary dieases. Every mother should keep supplied with this wonderful cough medicine. Sold by W. M. Johnson.
